

MISSOURI VOTERS WANT TO **Safeguard Elections**

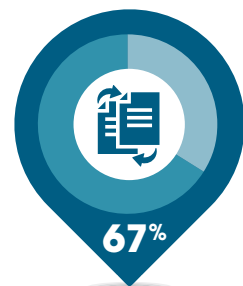

Voters support **fining and penalizing** unelected state bureaucrats who mishandle or tamper with elections.

want to allow the State Legislature to compel election officials to **carry out all the duties legally required by their job.**

want to **automatically trigger recounts in local elections** where the difference in votes is one half of one percent or fewer.

want **cross checking Missouri voter registration rolls** against rolls in neighboring states.

Percentages for specific messages represent the percentage of voters more likely to support, as represented at solutionsproject.org/polls/missouri-election-integrity
